SAVE $2000 PER COUPLE

RESERVE BY JUNE 22, 2018
Dear Fellow Columbian,

Join the Columbia Alumni Association (CAA) from January 26 – February 8, 2019, as we explore Antarctica, Earth’s last frontier. “Everything wears an aspect of unreality,” Ernest Shackleton wrote. “Icebergs hang upside-down in the sky, the land appears as layers of silvery or golden cloud, cloud banks look like land, and icebergs masquerade as islands.” Few travelers have followed the adventuresome explorers Shackleton, Amundsen, and Scott to the Antarctic. Visit this rarely seen wilderness as we cruise aboard the state-of-the-art, five-star, ice-class L’Austral.

Begin with an exploration of cosmopolitan Buenos Aires before continuing south to Ushuaia and embarking on L’Austral for your voyage to the southern continent. To enhance your Antarctic experience, the ship is staffed with an expert team of naturalists who will guide you on excursions ashore. Under their direction, you will board sturdy Zodiac craft for landings on rocky shores and beaches to observe the antics of Antarctica’s bountiful wildlife. Humpback whales, leopard seals, and Adélie penguins mingle amid glimmering turquoise glaciers and sparkling icebergs. Discover the secrets of the White Continent, from the long sunrises that paint the icescape in soft shades of pink and gold, to the lingering light of the austral summer. Antarctica’s spectacular illuminations reveal the contrasts and marvels of the most unique place on Earth to those fortunate enough to visit.

Retrace the sea-lanes navigated by storied explorers Shackleton, Amundsen and Scott, who sought out the final frontier of “The White Continent.” Cruise for nine nights aboard the specially chartered L’Austral, one of the finest vessels plying Antarctic waters. With private balconies in 95 percent of its ocean-view, Five-Star accommodations and encompassing state-of-the-art ship design and technology, L’Austral sets the highest standards in elegance and comfort. A comprehensive schedule of exclusive and specially arranged lectures will enhance your Antarctic experience.

The CAA is a global network connecting Columbians of all schools to one another and to the intellectual and social fabric of Columbia University, even after graduation. It links over 338,000 alumni through more than 100 Regional Clubs and Shared Interest Groups, online resources, and over 200 thought-provoking programs around the world. The CAA Travel Study Program is one of the benefits offered to Columbia alumni and is an opportunity to continue one’s Columbia education through new intellectual, cultural, and geographical horizons.

Travel with alumni, friends, and participants from cosponsoring associations for this once-in-a-lifetime adventure. Space is limited on this departure, so I urge you to contact the CAA Travel Study Program at 866-325-8664 or travelstudy@columbia.edu for more details and to reserve your place today.

Sincerely,

Donna H. MacPhee ’89CC, P ’17CC

LUXURY
Our programs are classified in three categories: Value, Superior and Luxury
Wildlife Conservation
The unique international Antarctic Treaty protects Antarctica’s wildlife and its natural habitats and provides a guide for visitors to this great continent, where no country has sovereignty.

To protect the fragile Antarctic environment, all travelers will go ashore in small groups, so as not to crowd rookeries, disturb nesting sites or disrupt research. All visitors will be asked not to remove—or leave—anything ashore.

U.S.
Saturday, January 26
Depart the U.S.

Buenos Aires, Argentina
Sunday, January 27
Arrive in cosmopolitan Buenos Aires and check into the Five-Star INTERCONTINENTAL BUENOS AIRES HOTEL, ideally located within walking distance of the landmark Palace of the Argentine National Congress. This evening, attend the Welcome Reception.

Buenos Aires
Monday, January 28
Birthplace of the tango, Buenos Aires is a city of diverse and dynamic barrios (neighborhoods). See the colorful La Boca district, Monserrat’s grand public buildings, historic Plaza de Mayo, Palermo’s lavish parks, Puerto Madero’s lively riverfront community and the charming old quarter of San Telmo.

Visit the city’s renowned Recoleta Cemetery—lined with ornate vaults and sculptures, this is the final resting place of Eva Perón, the legendary former First Lady of Argentina.

Buenos Aires/ Ushuaia
Tuesday, January 29
This morning, fly to Ushuaia, the world’s southernmost city, capital of Tierra del Fuego and the gateway to Antarctica. Embark L’AUSTRAL this afternoon and cruise through storied Beagle Channel, named for the ship that carried Charles Darwin on his South American voyages.

Attend the Captain’s Welcome Reception this evening.

Cruising Drake Passage
Wednesday, January 30, to Thursday, January 31
Cross the legendary Drake Passage and, upon reaching the Antarctic Convergence, watch for seabirds and breaching fin and humpback whales feeding on plankton and krill brought to the surface by cold Antarctic currents merging with warmer waters of the South Pacific and Atlantic Oceans.

Your expedition team of naturalists will present insightful lectures, preparing you for your first landing in Antarctica. During the evening, enjoy the lingering twilight of the Antarctic summer.

Please note that the ship’s cruising pattern and positionings are dependent on weather, ice and sea conditions and are subject to change.

Cruising Antarctica
Friday, February 1, to Tuesday, February 5
Cruise below the 60th parallel south to the outer shores and islands of the Antarctic Peninsula, Earth’s last frontier. Here, explore some of the world’s most pristine wilderness, where towering mountains of ice and volcanic rock create precipitous coastlines and islands, and ever-changing patterns of ice stretch toward the boundless blue horizon.

In this seemingly harsh environment, a vast array of marine wildlife flourishes, including millions of penguins, countless seabirds and thousands of seals and whales. An otherworldly topography of volcanoes and glaciers, populated with riveting wildlife and historic outposts, unfolds—completely immersing you in the irresistible nuances of Earth’s most inaccessible continent for the complete Antarctic experience.

Cruise through breathtaking, glacier-lined Neumayer Channel to rugged Goudier Island. Visit Port Lockroy; nestled among serene mountain peaks as high as 6000 feet, the port was originally constructed in 1944 by an eight-man team as an intelligence post for British espionage during World War II and converted into a whaling station and scientific base in the 1950s, and its surrounding grounds are populated by blue-eye shags and gentoo penguins. Gain insight into the daily activities of past researchers at the living museum known as “Base A” and mail a postcard stamped with an Antarctica postmark from the official British Post Office.

Rocky Jouglia Point on Wiencke Island offers a rare opportunity to view the skeletal remains of an adult blue whale and to see populous colonies of gentoo penguins and kelp gulls that inhabit the entire region. Call at Petermann Island, the southernmost point of your journey, and watch its thriving rookeries of Adélie and gentoo penguins and blue-eyed shags.

Flanked by sheer cliffs of towering glaciers between the Antarctic Peninsula and Booth Island, cruise through the Lemaire Channel, where seven majestic miles of mountains and interweaving patterns of ice floes brim with wildlife. Listen for the low rumbling of Rudolf Glacier as it calves slabs of ice into Neko Harbor, named for an early 20th-century whaling boat. Surrounded by soaring glaciers and snow-covered mountains, this spectacular harbor is one of the most dramatic sights on your expedition. Here, make your first “continental landing” in Antarctica.

In Paradise Bay, crystal cliffs of ice descend from sky-bent mountains into the iceberg-laden waters along the Antarctic Peninsula’s western coast. Named by 19th-century whalers who sought shelter in its coves, it is an ideal sanctuary for in contrast to sociable Adélie penguins, which congregate in large colonies, the leopard seal cherishes his solitude and independence.
marine wildlife including humpback whales, crabeater seals and Cape petrels. **Deception Island**, actually the rim of a dormant volcano crater, encircles the Port Foster caldera, where the ship enters through Neptune's Bellows, a sublime harbor ringed by snowcapped peaks and sheer cliffs. In **Pendulum Cove**, see the steaming, geothermally heated shallows. Observe the amazing colony of tens of thousands of chinstrap penguins at Baily Head. Then walk along the black sand beaches of Telefon Bay to nearby craters, for firsthand insight into the pivotal volcanic activity that created the island and shaped the natural history of the region.

One of the smallest but most beautiful of the South Shetland Islands, crescent-shaped **Half Moon Island** is known for its craggy volcanic rock formations and tranquil lagoons. It is also the site of Cámara Station, a base monitored by Argentine biologists studying regional wildlife. Here, observe the antics of the island's colony of chinstrap penguins.

Relax and reflect on board as the ship turns north, and attend the Captain's Farewell Reception.

**Cruising Drake Passage/ Ushuaia, Argentina**

Wednesday, February 6

Cross the Drake Passage and enjoy lively, informative discussions with the ship's naturalists. Watch for endangered albatross and the many different species of petrels as you cruise across the Antarctic Convergence.

**Ushuaia/Buenos Aires**

Thursday, February 7

Disembark in Ushuaia and fly to Buenos Aires. Continue on the Iguazú Falls Post-Program Option with an overnight stay in Buenos Aires or depart for the U.S.

**U.S.**

Friday, February 8

Arrive in the U.S.

Left: **Look for breaching humpback whales**, which migrate to Antarctic waters to feed during the austral summer.

*Enjoy an up-close, unparalleled view of chinstrap penguins in their natural Antarctic habitat.*

---

**Iguazú Falls Post-Program Option**

The UNESCO World Heritage site of Iguazú Falls is one of the world’s most incredible natural wonders, where more than 275 spectacular waterfalls span nearly two verdant miles of the Argentina-Brazil frontier, cascading from as high as 270 feet through one of South America’s last remaining virgin rain forests. Visit the lush Parque das Aves jungle reserve, a nature lover’s paradise, home to more than 350 species of birds, 66 varieties of mammals and a mind-boggling array of reptiles, fish, butterflies and flora. This exclusive three-night Post-Program Option features one night in the Five-Star InterContinental Buenos Aires Hotel and two nights in the Five-Star Meliá Iguazú. Buenos Aires/Iguazú round-trip airfare is included.

The Post-Program Option is available at additional cost. Details will be provided with your reservation confirmation.

Exploration of Antarctica

The intrepid deeds of Europeans Roald Amundsen, Robert Falcon Scott and Ernest Shackleton; Americans Admiral Richard Evelyn Byrd and Lincoln Ellsworth; and Canadian Sir Charles Seymour Wright, legendary explorers of Antarctica, have long been recounted in gripping personal tales and history books. Admiral Byrd, scion of a distinguished Virginia family, led the U.S. Antarctic expedition (1928-30) and made the first overflight of the South Pole (1929). Byrd later led three additional expeditions to Antarctica and named a large portion of the continent Marie Byrd Land after his wife. Another American prominent in the exploration of the South Polar region was Lincoln Ellsworth. This Chicago native made the first flight across Antarctica (1935). In the course of his journey, he discovered the mountain range with the continent’s highest peaks, later named Ellsworth Mountains in his honor.

Your Expedition Team

Seasoned naturalists, who have studied and traveled extensively in Antarctica and the most remote regions of the world, accompany you on board and on excursions as your Antarctic Expedition Team. Their areas of expertise span marine biology, ornithology, ecology, geology, glaciology, conservation and environmental education, history and photography. The team’s collaborative efforts, experience, particular interest in the world’s ecosystems and enthusiasm for sharing their knowledge make them exceptionally well-suited to lead your Expedition to Antarctica.
